Harmon C. McAllister, Ph.D.
Research Director
THE COUNCIL FOR
TOBACCO RESEARCH-U.S.A., INC.
900 Third Avenue
New York, NY 10022

Dear Dr. McAllister:

As Chairman of the 1990 FASEB Summer Research Conference on ***"Neural Mechanisms in Cardiovascular Regulation"***, which was held from June 10-15, in Saxtons River, Vermont, I would like to express my sincere appreciation for your generous support of this conference.

The conference was extremely successful as judged by the written critiques of the attendees (117). Participants of previous conferences felt this one surpassed the others in subject matter as well as in the discussion of new techniques. I believe that because the presentations and discussions involved investigators with various areas of expertise, the conference will continue to develop and be a successful means of communication between disciplines.

All participants expressed the importance of this conference and their desire of continued support. They also were pleased by the fact that even though requested funds are hard to come by these days, outside support for this conference was generous. Knowing that you can only accommodate a fraction of the many requests you receive for conferences, we thank you for recognizing the value and importance of our conference and approving our request for funding.

Sincerely,

Vernon S. Bishop, Ph.D.
Chairman
1990 FASEB Sum Res Conf
"Neural Mechanisms...
